State Labor standards provisions, including prevailing wage requirements, will be enforced such that the general rate of per diem wages (prevailing wage) shall be paid for each craft, classification, or type of worker needed to execute the contract to all workers employed in the execution of the contract. Burnley Street, Camarillo, CA 93010, and are available to any interested party on request.

**AWARD OF CONTRACT:** Each contractor and subcontractor listed on the bid must be registered with the Department of Industrial Relations pursuant to Labor Code Section 1725.5, subject to the limited exceptions set forth in Labor Code Section 1771.1(a) (regarding the submission of a bid as authorized by Business & Professions Code Section 7029.1 or Public Contract Code Section 10164 or 20103.5, provided the contractor is registered to perform public work pursuant to Section 1725.5 at the time the contract is awarded).

**SUBCONTRACTOR'S LIST:** Bidder understands that if he or she fails to specify a subcontractor for any portion of the work to be performed under the contract, he or she shall be deemed to have agreed to perform such portion himself and that he or she shall not be permitted to sublet or subcontract that portion of the work except in cases of public emergency or necessity. In compliance with the provisions of Section 4100 through 4107 of the Public Contract Code of the State of the California and any amendments thereto, the undersigned bidder has set forth on the form provided therefor, the name and location of the place of business of each subcontractor who will perform work or labor or render services to the prime contractor, in or about the construction of or improvements to be performed, under the contract documents to which the attached bid is responsive including special fabrication and installation, and the portion of the work which will be done by each subcontractor for each subcontract in excess of one-half of one percent (1/2%) of this total bid or, in the case of bids for the construction of street and highways, including bridges, in excess of one-half of one percent (1/2%) of this total bid or \$10,000.00, whichever is greater. Additionally, once a subcontractor has been listed in the bid, another subcontractor may not be substituted unless the appropriate statutory procedure is followed and the District consents to the substitution.

**BID GUARANTY:** Bids must be accompanied by cash, or by cashier's or certified check made payable to the Pleasant Valley Recreation & Park District, or by a **bid bond** executed by an admitted surety insurer on the bond form provided herein, in the amount of **ten percent (10%)** of the amount of bid price, made payable to the Pleasant Valley Recreation & Park District as a guarantee that the bidder, whose bid is accepted, will promptly execute the contract, secure payment of workers' compensation insurance, and furnish a satisfactory **faithful performance bond** in the amount of **one hundred percent (100%)** of the total bid price and a **payment bond** (labor and material bond) in the amount of **one hundred percent (100%)** of the total bid price which complies with all of the requirements of Civil Code Section 9554.

**RETENTION:** The District will deduct a five percent (5%) retention from all progress payments as specified in Section 7-3.2 of the 2021 Standard Specifications for Public Works Construction. The District in accordance with Public Contract Code Sect. 22300 shall permit the substitution of securities for any moneys withheld by a public agency to ensure performance under a contract. The District hereby incorporates herein all of the provisions set forth in Public Contract Code Sect. 22300.

**CONTRACTOR'S LICENSE:** At the time of "Award of the Contract", the Prime Contractor must have a valid California State Contractor's License with a classification of "A" in accordance with provisions of California Business and Professions Code Sections 7000 through 7145 and the contractor shall warrant that it and all subcontractors are properly licensed, which includes each entity having a local business license.

**DISTRICT'S RIGHTS RESERVED:** The District reserves the right to reject any and all bids or to waive any irregularities or informalities in any bids or in the bidding, should it deem this necessary for the public good, and also the bid of the bidder who has been delinquent or unfaithful in any former contract with the Pleasant Valley Recreation & Park District. No bidder may withdraw his or her bid for a period of **sixty (60) days** after the date from the opening thereof.

## INSTRUCTIONS TO BIDDERS

**BID REGISTRATION:** **N/A** Only registered plan holders will be permitted to submit a bid for the project. To register to bid on this project, email \_\_\_\_\_, \_\_\_\_\_, at \_\_\_\_\_ at least 72 hours prior to bids being due with the following information: Name of company, company address, name of contact, phone number, fax number, and contact's email address. The subject line of the email must state: **BID REGISTRATION FOR \_\_\_\_\_ PROJECT, SPEC NO. \_\_\_\_\_.**

**BID FORM:** All bids shall be submitted on the Bid Forms provided herein for the **SENIOR CENTER RESTROOMS PROJECT, SPEC NO. SCRR-24-25**. All information requested therein must be clearly and legibly set forth in the manner and form indicated. The District will not consider any bid not meeting these requirements.

**DELIVERY OF BIDS:** The bids shall be delivered by the time and to the place stipulated in the "Notice Inviting Sealed Bids." It is the bidder's sole responsibility to see that his or her bid is received in proper time. Any bid received after the scheduled closing time for receipt of bids will be returned to the bidder unopened. Bidders or their authorized agents are invited to be present at bid opening.

**MODIFICATIONS AND ALTERNATIVE BIDS:** Unauthorized conditions, limitations, or provisos attached to a bid will render it unresponsive and may cause its rejection. The complete bid forms shall be without alterations or erasures, unless each such correction is suitably authenticated by affixing in the margin immediately opposite the correction the surname or surnames of the person or persons signing the bid. Alternative bids will not be considered unless called for. No oral, telegraphic, or telephonic bid or modifications will be considered.

**WITHDRAWAL OF BID:** The bid may be withdrawn upon request by the bidder without prejudice to himself prior to, but not after the time fixed for opening of bids, provided that the request is in writing, has been executed by the bidder or his or her duly authorized representative, and is filed with the Clerk of the Board. **No bid may be withdrawn during the period of sixty (60) days after the opening of bids.**

**BID GUARANTY:** Each bid shall be accompanied by cash, or a cashier's or certified check, or by a bid bond in the amount of **ten percent (10%)** of the amount named in the bid. Said check or bond shall be made payable to the District and shall be given as a guarantee that the bidder, if awarded the work, will enter into a contract within fifteen (15) days after written notice of the award and will furnish the necessary bonds as hereinafter provided. In case of refusal or failure to enter into said contract, the check or bond, as the case may be, shall be forfeited to the District. No bidder's bond will be accepted unless it conforms substantially to the form furnished by the District, which is bound herein, and is properly filled out and executed.

**DISCREPANCIES IN BIDS:** In case of discrepancy between numeric and handwritten amounts, the handwritten amount shall prevail. In case of discrepancy between the unit cost and the total set forth for that item, the unit cost shall prevail, provided however, if the amount set forth as a unit cost is ambiguous, unintelligible, or uncertain for any cause, or if is omitted, or in the case of unit

basis items, is the same amount as the entry in the "Total Item Amount" column, then the amount set forth in the "Total Item Amount" column for the item shall prevail in accordance with the following:

- (1) As to lump sum items, the amount set forth in the "Total Item Amount" column shall be the item price.
- (2) As to unit basis items, the amount set forth in the "Total Item Amount" column shall be divided by the estimated quantity for the item and the price thus obtained shall be the unit costs.

If the "Total Contract Amount" does not equal the sum of the item totals, then the Engineer, after resolving any discrepancy in the item price totals, shall sum the total column and the resultant amount shall be considered the "Total Contract Amount".

**COMPETENCY OF BIDDERS:** In selecting the lowest responsible bidder, consideration will be given not only to the financial standing but also to the general competency of the bidder for the performance of the work covered by the plans and specifications. To this end, each bid shall be supported by a statement of the bidder's experience on the form entitled "**Information Required of Bidder**" bound herein. No bid will be awarded to a Contractor who, at the time of the bid opening and "Award of the Contract", is not licensed in accordance with the laws of the State of California under applicable provisions of the Business and Professions Code or from a Contractor who has failed to demonstrate the attributes of trustworthiness, quality, fitness, capacity and experience to satisfactorily perform the public works contract. The Contractor shall include the Contractor's license number, license classification, and license expiration date on the form furnished herein entitled "Information Required of Bidders." The licensing requirements for Contractors shall apply also to Subcontractors. In addition, any contractor or subcontractor who is ineligible under [Lab C §§1777.1](#) and [1777.7](#) is prohibited from working on this Project.

**SUBCONTRACTOR'S LIST:** Bidder understands that if he or she fails to specify a subcontractor for any portion of the work to be performed under the contract, he or she shall be deemed to have agreed to perform such portion himself and that he or she shall not be permitted to sublet or subcontract that portion of the work except in cases of public emergency or necessity. In compliance with the provisions of Section 4100 through 4107 of the Public Contract Code of the State of the California and any amendments thereto, the undersigned bidder has set forth on the form provided therefor, the name and location of the place of business of each subcontractor who will perform work or labor or render services to the prime contractor, in or about the construction of or improvements to be performed, under the contract documents to which the attached bid is responsive including special fabrication and installation, and the portion of the work which will be done by each subcontractor for each subcontract in excess of one-half of one percent (1/2%) of this total bid or, in the case of bids for the construction of street and highways, including bridges, in excess of one-half of one percent (1/2%) of this total bid or \$10,000.00, whichever is greater. Additionally, once a subcontractor has been listed in the bid, another subcontractor may not be substituted unless the appropriate statutory procedure is followed and the District consents to the substitution.

**BIDDER'S EXAMINATION OF SITE:** Each bidder shall examine carefully the site of the proposed work and the contract documents herein. It will be assumed that the bidder has investigated and is satisfied as to the conditions to be encountered; as to the character, quality, and quantity of the materials to be furnished; and as to the requirements of the contract, specifications, and drawings. The name of the individual who examined the site of the work and the date of such examination shall be stated in the form entitled "Information Required of Bidder" in the space provided therefor.

**EQUIVALENT MATERIALS:** Approval of equipment and materials offered as equivalents to those specified must be obtained in writing from the District. Requests for consideration of equivalents must be submitted in writing allowing five (5) working days for complete consideration of all specifications, samples, references, tests, and other details to the full satisfaction of the District.

**TAXES:** No mention shall be made in the bid of Sales Tax, Use Tax, or any other tax, as all amounts bid will be deemed and held to include any such taxes that may be applicable.

**DISQUALIFICATION OF BIDDERS:** More than one bid from an individual, firm partnership, corporation, or association under the same or different names will not be considered. Reasonable grounds for believing that any bidder is interested in more than one bid for the work contemplated will cause the rejection of all bids in which such bidder is interested. If there is reason for believing that collusion exists among the bidders, all bids will be rejected and none of the participants in such collusion will be considered in future bids. Similarly, failure to comply with the registration requirements of Labor Code Section 1725.5, as further described in the Notice Inviting Bidders, will disqualify a Bidder.

**RETURN OF BID GUARANTIES:** Within **ten (10) days** after award of the contract, the District will return the bid guaranties made by check accompanying each of the bids except for the three (3) lowest bidders. All other bid guaranties made by check will be held until the contract has been finally executed. They will then be returned to the respective bidders whose bids they accompany. Bid guaranties made by bond shall be void according to the bid bond language, page D-1.

**AWARD OF CONTRACT:** Bids will be compared on the basis of the lowest possible cost and the contract, if awarded, will be awarded to a responsible bidder whose bid complies with the requirements of these specifications. The award, if made, will be made within **sixty (60) days** after the opening of the bids, provided that the award may be made after said period if the successful bidder shall not have given the District written notice of the withdrawal of his or her bid.

**EXECUTION OF CONTRACT:** The bidder to whom award is made shall execute a written contract with the District on the form agreement provided, and shall secure all insurance and bonds as herein provided within **fifteen (15) days** from the date of written notice of the award. Failure or refusal to enter into a contract as herein provided, or to conform to any of the stipulated requirements in connection therewith shall be just cause for the annulment of the award and the forfeiture of the bid guaranty.

If the successful bidder refuses or fails to execute the contract, the District may award the contract to the second lowest responsible bidder. If the second lowest responsible bidder refuses or fails to execute the contract, the District may award the contract to the third lowest responsible bidder. On the failure or refusal of such second or third lowest bidder to execute the contract, such bidder's guaranty shall be likewise forfeited to the District. The work may then be re-advertised.

**INSURANCE: Certificates in the amounts required shall be furnished by the Contractor to the District and approved by the District prior to the commencement of work.**

The Contractor and its subcontractors shall maintain insurance in conformance with the requirements set forth below. Contractor will use existing coverage to comply with these requirements. If that existing coverage does not meet the requirements set forth herein, Contractor agrees to amend, supplement, or endorse the existing coverage to do so.

Contractor acknowledges that the insurance coverage and policy limits set forth in this section constitute the minimum amount of coverage required. Any insurance proceeds available to Contractor or its subcontractors in excess of the limits and coverage identified in this Agreement and which is applicable to a given loss, claim or demand, will be equally available to District.

Contractor shall provide the following types and amounts of insurance:

The policy must include contractual liability that has not been amended. Any endorsement restricting standard ISO "insured contract" language will not be accepted.

In addition, Contractor shall require each subcontractor to similarly maintain Workers’ Compensation Insurance and Employer’s Liability Insurance in accordance with the laws of the State of California, Section 3700 for all of the subcontractor’s employees.

Contractor shall submit to District, along with the certificate of insurance, a Waiver of Subrogation endorsement in favor of District, its officers, agents, employees and volunteers.

The policy limit shall be no less than \$1,000,000 dollars per occurrence or claim, and \$2,000,000 policy aggregate. All activities contemplated in this Agreement shall be specifically scheduled on the policy as “covered operations.” The policy shall provide coverage for the hauling of waste from the project site to the final disposal location, including non-owned disposal sites.

Products/completed operations coverage shall extend a minimum of three (3) years after project completion. Coverage shall be included on behalf of the insured for covered claims arising out of the actions of independent contractors. If the insured is using subcontractors, the Policy must include work performed “by or on behalf” of the insured. Policy shall contain no language that would invalidate or remove the insurer’s duty to defend or indemnify for claims or suits expressly excluded from coverage. Policy shall specifically provide for a duty to defend on the part of the insurer. The District, its officials, officers, agents, and employees, shall be included as insureds under the policy.

**Builder’s risk insurance.** Upon commencement of construction and with approval of District, Contractor shall obtain and maintain builder’s risk insurance for the entire duration of the project until only the District has an insurable interest. The Builder’s Risk coverage shall include the coverages as specified below.

The named insureds shall be Contractor and District, including its officers, officials, employees, and agents. All subcontractors (excluding those solely responsible for design Work) of any tier and suppliers shall be included as additional insureds as their interests may appear. Contractor shall not be required to maintain property insurance for any portion of the project following transfer of control thereof to District. The policy shall contain a provision that all proceeds from the builder's risk policy shall be made payable to the District. The District will act as a fiduciary for all other interests in the project.

The policy shall be provided for replacement value on an "all risk" basis for the completed value of the project. There shall be no coinsurance penalty or provisional limit provision in any such policy. The policy must include: (1) coverage for any ensuing loss from faulty workmanship, Nonconforming Work, omission or deficiency in design or specifications; (2) coverage against machinery accidents and operational testing; (3) coverage for removal of debris, and insuring the buildings, structures, machinery, equipment, materials, facilities, fixtures and all other properties constituting a part of the project; (4) Ordinance or law coverage for contingent rebuilding, demolition, and increased costs of construction; (5) transit coverage (unless insured by the supplier or receiving contractor), with sub-limits sufficient to insure the full replacement value of any key equipment item; (6) Ocean marine cargo coverage insuring any project materials or supplies, if applicable; (7) coverage with sub-limits sufficient to insure the full replacement value of any property or equipment stored either on or off the Site or any staging area. Such insurance shall be on a form acceptable to District to ensure adequacy of terms and sublimits and shall be submitted to the District prior to commencement of construction.

### **Other provisions or requirements**

**Proof of insurance.** Contractor shall provide certificates of insurance to District as evidence of the insurance coverage required herein, along with a waiver of subrogation endorsement for workers' compensation. Insurance certificates and endorsements must be approved by District's risk manager prior to commencement of performance. Current certification of insurance shall be kept on file with District at all times during the term of this contract. District reserves the right to require complete, certified copies of all required insurance policies, at any time.

**Duration of coverage.** Contractor shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property, which may arise from or in connection with the performance of the Work hereunder by Contractor, his agents, representatives, employees or subcontractors. Contractor must maintain general liability and umbrella or excess liability insurance for as long as there is a statutory exposure to completed operations claims. District and its officers, officials, employees, and agents shall continue as additional insureds under such policies.

**Primary/noncontributing.** Coverage provided by Contractor shall be primary and any insurance or self-insurance procured or maintained by District shall not be required to contribute with it. The limits of insurance required herein may be satisfied by a combination of primary and umbrella or excess insurance. Any umbrella or excess insurance shall contain or be endorsed to contain a provision that such coverage shall also apply on a primary and non-contributory basis for the

benefit of District before the District's own insurance or self-insurance shall be called upon to protect it as a named insured.

**District's rights of enforcement.** In the event any policy of insurance required under this Agreement does not comply with these requirements or is canceled and not replaced, District has the right but not the duty to obtain the insurance it deems necessary and any premium paid by District will be promptly reimbursed by Contractor or District will withhold amounts sufficient to pay premium from Contractor payments. In the alternative, District may cancel this Agreement.

**Acceptable insurers.** All insurance policies shall be issued by an insurance company currently authorized by the Insurance Commissioner to transact business of insurance or is on the List of Approved Surplus Line Insurers in the State of California, with an assigned policyholders' Rating of A- (or higher) and Financial Size Category Class VII (or larger) in accordance with the latest edition of Best's Key Rating Guide, unless otherwise approved by the District's risk manager.

**Waiver of subrogation.** All insurance coverage maintained or procured pursuant to this agreement shall be endorsed to waive subrogation against District, its elected or appointed officers, agents, officials, employees and volunteers or shall specifically allow Contractor or others providing insurance evidence in compliance with these specifications to waive their right of recovery prior to a loss. Contractor hereby waives its own right of recovery against District, and shall require similar written express waivers and insurance clauses from each of its subconsultants.

**Enforcement of contract provisions (non estoppel).** Contractor acknowledges and agrees that any actual or alleged failure on the part of the District to inform Contractor of non-compliance with any requirement imposes no additional obligations on the District nor does it waive any rights hereunder.

**Requirements not limiting.** Requirements of specific coverage features or limits contained in this Section are not intended as a limitation on coverage, limits or other requirements, or a waiver of any coverage normally provided by any insurance. Specific reference to a given coverage feature is for purposes of clarification only as it pertains to a given issue and is not intended by any party or insured to be all inclusive, or to the exclusion of other coverage, or a waiver of any type. If the Contractor maintains higher limits than the minimums shown above, the District requires and shall be entitled to coverage for the higher limits maintained by the Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the District.

**Notice of cancellation.** Contractor agrees to oblige its insurance agent or broker and insurers to provide to District with a thirty (30) day notice of cancellation (except for nonpayment for which a ten (10) day notice is required) or nonrenewal of coverage for each required coverage.

**Additional insured status.** General liability policies shall provide or be endorsed to provide that District and its officers, officials, employees, agents, and volunteers shall be additional insureds under such policies. This provision shall also apply to any excess/umbrella liability policies.

**Prohibition of undisclosed coverage limitations.** None of the coverages required herein will be in compliance with these requirements if they include any limiting endorsement of any kind that has not been first submitted to District and approved of in writing.

**Separation of insureds.** A severability of interests provision must apply for all additional insureds ensuring that Contractor's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the insurer's limits of liability. The policy(ies) shall not contain any cross-liability exclusions.

**Pass through clause.** Contractor agrees to ensure that its subconsultants, subcontractors, and any other party involved with the project who is brought onto or involved in the project by Contractor, provide the same minimum insurance coverage and endorsements required of Contractor. Contractor agrees to monitor and review all such coverage and assumes all responsibility for ensuring that such coverage is provided in conformity with the requirements of this section. Contractor agrees that upon request, all agreements with consultants, subcontractors, and others engaged in the project will be submitted to District for review.

**Agency's right to revise requirements.** The District reserves the right at any time during the term of the contract to change the amounts and types of insurance required by giving the Contractor a ninety (90) day advance written notice of such change. If such change results in substantial additional cost to the Contractor, the District and Contractor may renegotiate Contractor's compensation.

**Self-insured retentions.** Any self-insured retentions must be declared to and approved by District. District reserves the right to require that self-insured retentions be eliminated, lowered, or replaced by a deductible. Self-insurance will not be considered to comply with these specifications unless approved by District.

**Timely notice of claims.** Contractor shall give District prompt and timely notice of claims made or suits instituted that arise out of or result from Contractor's performance under this Agreement, and that involve or may involve coverage under any of the required liability policies.

**Additional insurance.** Contractor shall also procure and maintain, at its own cost and expense, any additional kinds of insurance, which in its own judgment may be necessary for its proper protection and prosecution of the Work.

**BONDS: The required bonds in the amounts required shall be furnished by the Contractor to the District and approved by the District prior to the commencement and throughout the duration of the work.**

The Contractor shall secure with a responsible corporate surety or corporate sureties, satisfactory bonds conditioned upon faithful performance by the Contractor, of all requirements under the contract and upon the payment of claims of material supplier and laborers thereunder. The **Faithful Performance Bond** shall be in the sum of not less than **one hundred percent (100%)** of the estimated aggregate amount of the payments to be made under the contract computed on the basis of the prices stated in the bid. The **Payment Bond** (Labor and Material Bond) shall be in the sum

of not less than **one hundred percent (100%)** of the estimated aggregate amount of the payments to be made under the contract computed on the basis of the prices stated in the bid.

The payment bond shall contain the original notarized signature of an authorized officer of the surety and affixed thereto shall be a certified and current copy of his power of attorney. **The payment bond shall be unconditional and remain in force during the entire term of the contract** agreement and shall be null and void only if the Contractor completely and faithfully pays all subcontractors and suppliers

**SUFFICIENCY OF INSURER OR SURETY FOR PAYMENT BOND AND PERFORMANCE BOND:** All insurers are to be rated A or better according to the most recent Best Rating Guide or The Key Rating Guide, and only if they are of a financial category Class VII or better, unless such requirements are waived by the Risk Manager of the District due to unique circumstances. All sureties shall be admitted surety insurers authorized to do business in the State of California by the Insurance Commissioner. Should the District object to the sufficiency of the insurer or surety the Contractor shall immediately deliver to the District the following documents:

- (a) A copy of the “Certificate of Authority” of the Insurer or Surety issued by the Insurance Commissioner, which authorizes the Insurer or Surety to transact surety insurance in the State of California; or
- (b) A certificate from the Clerk of the County of Ventura that the “Certificate of Authority” of the Insurer or Surety has not been surrendered, revoked, canceled, annulled, or suspended or, in the event the “Certificate of Authority” of the Insurer or Surety has been suspended, that renewed authority has been granted.

Failure of Contractor to timely deliver these documents shall require the District to refrain from entering the agreement, as Contractor will be deemed to have failed to ensure the sufficiency of the Insurer or Surety to the satisfaction of the District, as required by the provisions of the Bond and Undertaking Law, Code of Civil Procedure 995.660. Upon receipt of any bonds, District shall contact the bond company to verify the bond’s validity.

**EVIDENCE OF RESPONSIBILITY:** Upon the request of the District, a bidder whose bid is under consideration for the award of the contract shall submit promptly to the District satisfactory evidence showing the bidder's financial resources, his or her construction experience, and his or her organization and plant facilities available for the performance of the contract.

**EMPLOYMENT OF APPRENTICES:** Attention is directed to the provisions in Sections 1777.5 and 1777.6 of the California Labor Code concerning employment of apprentices by the Contractor, or any Subcontractor under the Contractor. The Contractor, and any Subcontractor under the Contractor, shall comply with the requirements of said sections in the employment of apprentices; however, the Contractor shall have full responsibility for compliance with said Labor Code sections for all apprenticeable occupations, regardless of any other contractual or employment relationships alleged to exist.

**WAGE RATES:** In entering into a public works contract, or a subcontract, to supply goods services, or materials pursuant to a public works contract, the Contractor, or subcontractor, offers and agrees to follow the State Labor standards. State Labor standards provisions, including prevailing wage requirements, will be enforced. The State General Prevailing Wage Determination is as established by the California Department of Industrial Relations (available at <http://www.dir.ca.gov/DLSR/PWD/index.htm>). The general rate of per diem wages (prevailing wage) shall be paid for each craft, classification, or type of worker needed to execute the contract to all workers employed in the execution of the contract. The prevailing rate of per diem wages are on file at the Pleasant Valley Recreation & Park District, Department of Parks, 1605 E. Burnley Street, Camarillo, CA 93010, and are available to any interested party on request.

California Labor Code section 1773.3 requires that public agencies notify the DIR when public projects are awarded within 30 days of award and the imposition of a fine at a rate of \$100 per day, not to exceed \$10,000, was authorized for failure to provide notification. At the time of award, the bidder will be requested to provide DIR Award Notification Data for each General Contractor and for each Sub-contractor performing work on the project which data will be necessary to notify DIR of the award. If the Contractor fails to provide the requested DIR Award Notification Data within 30 days after the issuance of the Notice of Award/Notice to Proceed, thereby causing District to incur the imposition of a fine by the DIR, such fine will be imposed upon the General Contractor for reimbursement.

**SAFETY PERMIT:** The Contractor, and not the District, shall be responsible for performing safety inspections for this project. Particular attention is called to Subsection 7-10.4.1 of the Standard Specifications for Public Works Construction, which requires orders issued by the California Division of Occupational Health and Safety (Cal/OSHA). The Contractor, if needed, shall secure a permit for excavation and trenching from Cal/OSHA and shall file a copy of such permit with the Engineer prior to commencement of work.

**CARB CERTIFICATES:** Before award of contract and for a project involving the use of in-use off-road diesel-fueled vehicles, as defined by 13 CCR 2449, bidder shall obtain and provide to District copies of the valid Certificates of Reported Compliance, as described in 13 CCR 2449(n), for the fleet performing services pursuant to this bid and all listed subcontractors.

**OTHER PERMITS, FEES, AND LICENSES:** The Contractor shall, prior to the start of construction, obtain a "**Construction Permit**" from the District. This will be a **NO FEE Permit**. In addition, the Contractor, and **ALL** sub-contractors, shall possess a **City business license** at the time of application for the Construction Permit and for the duration of the contract. The amount of the business license fee may be obtained from the City of Camarillo.

Copies of these Standard Specifications are available from the publisher, Building News, Incorporated, 990 Park Center Drive, Suite E, Vista, California 92081; telephone (760) 734-1113.

The Standard Specifications set forth above will control the General Provisions, Construction Materials, and Construction Methods for this Contract, except as amended by the Plans, Special Provisions, or other Contract Documents. The following Special Provisions are supplementary and in addition to the provisions of the Standard Specifications unless otherwise noted and the section numbers of the Special Provisions coincide with those of the said Standard Specifications. Only those sections requiring elaborations, amendments, specifying of the options, or additions are called out.

**LEGAL ADDRESS OF CONTRACTOR:** The address given in the Contractor's bid on which the contract is founded is hereby designated as the place to which all notices, letters, and other communications to the Contractor shall be mailed or delivered. Unless otherwise required by law, the mailing to or delivering at the above-named place of any notice, letter, or other communication by the District to the Contractor shall be deemed sufficient service thereof upon the Contractor. The date of said service shall be the date of such mailing or delivery. Such address may be changed at any time by a written notice signed by the Contractor and delivered to the Engineer.

**MONIES MAY BE RETAINED:** The District may keep any monies which would otherwise be payable at any time hereunder and apply the same, or so much as may be necessary therefor, to the payment of any expenses, losses, or damages, as determined by the Engineer, incurred by the District, for which the Contractor is liable under the contract.

No claim shall be made or filed, and neither the District nor any of its agents shall be liable for, or held to pay money, except as specifically provided in the contract.

**I. UNPAID CLAIMS:** If, upon or before the completion of the work herein agreed to be performed or at any time prior to the expiration of the period within which claims of lien may be filed for record as prescribed by Civil Code Section 8416, any person or persons claiming to have performed any labor or furnished any material, supplies, or services toward the performance or completion of this contract or that they have agreed to do so, shall file with the District a verified statement of such claim, stating in general terms the kind of labor and materials and the name of the person to or for whom the same was done or furnished, or both, and the amount in value, as near as may be, of that already done or furnished, or both, together with a statement that the same has not been paid, or if any person or persons shall bring against the District or against any agent or agents thereof any action to enforce such claim, the District shall until the discharge thereof withhold from the moneys under its control so much of said moneys due or to become due the Contractor under this contract as shall be sufficient to satisfy and discharge the amount in such notice or under such action claimed to be due, together with the costs thereof; provided, that if the District shall in its discretion permit the Contractor to file such additional bond as is authorized by

The noise level from the Contractor's operations, between the hours of 7:00 A.M. and 5:00 P.M., shall not exceed 86 dBA at a distance of fifty (50) feet. This requirement in no way relieves the Contractor from responsibility for complying with the District Code Chapter 8.20 "Noise Control" regulating noise level. Said noise level requirements shall apply to all equipment on the job or related to the job, including but not limited to trucks, transmit mixers, or transient equipment that may or may not be owned by the Contractor. The use of loud sound signals shall be avoided in favor of light warnings except those required by safety laws for the protection of personnel.

Full compensation for conforming to the requirements of this section shall be considered as included in the unit cost for the various contract items of work involved, and no additional compensation will be allowed therefor.

In the event that the District has obtained permits, licenses, or other authorizations applicable to the work in conformance with the requirements in said Environmental Quality Act of 1970, the Contractor shall comply with the provisions of said permits, licenses, and other authorizations.

**M. PAYMENTS:** Attention is directed to Subsection 7-3.2 of the Standard Specifications for partial payment and final payment requirements. No partial payment will be made for any materials on hand which are furnished but not incorporated in the work.

**N. LEGAL ACTIONS AGAINST THE DISTRICT:** In the event litigation is brought against the District concerning compliance by the District with State or Federal laws, rules, or regulations applicable to highway work, the provisions of this section shall apply.

(1) If, pursuant to court order, the District prohibits the Contractor from performing all or any portion of the work, the delay will be considered a utility delay within the meaning of Subsection 4-2.5 of the Standard Specifications unless the contract is terminated as hereinafter provided, in which event compensation payable to the Contractor shall be determined in accordance with said termination provisions.

(2) If, pursuant to court order (other than an order to show cause) the District is prohibited from requiring the Contractor to perform all or any portion of the work, the District may, if it so elects, eliminate the enjoined work pursuant to Section 2-7 of the Standard Specifications or terminate the contract in accordance with Subsections 6-6 and 6-7 of the Standard Specifications.

[3] Remove equipment and plan from the site of the work.

[4] Take such action as is necessary to protect materials from damage.

[5] Notify all Subcontractors and suppliers that the contract is being terminated and that their contracts or orders are not to be further performed unless otherwise authorized in writing by the Engineer.

[6] Provide the Engineer with an inventory list of all materials previously produced, purchased, or ordered from suppliers for use in the work and not yet used in the work, including its storage location and such other information as the Engineer may request.

[7] Dispose of materials not yet used in the work as directed by Engineer. It shall be the Contractor's responsibility to provide the District with good title to all materials purchased by the District hereunder, including materials for which partial payment has been made as provided in Subsection 7-3.2 of the Standard Specifications, and with bills of sale or other documents of title for such materials.

[8] Subject to the prior written approval of the Engineer, settle all outstanding liabilities and all claims arising out of subcontracts or orders for materials terminated hereunder. To the extent directed by the Engineer, the Contractor shall assign to the District all the right, title, and interest of the Contractor under subcontracts or orders for materials terminated hereunder.

[9] Furnish the Engineer with the documentation required to be furnished by the Contractor under the provisions of the contract including, on projects as to which Federal funds are involved, all documentation required under the Federal requirements included in the contract.

[10] Take such other actions as the Engineer may direct.

(b) Acceptance of the contract as hereinafter specified shall not relieve the Contractor of responsibility for damage to materials except as follows:

[1] The Contractor's responsibility for damage to materials for which partial payment has been made as provided in Subsection 7-3.2 of the Standard Specifications, and for materials furnished by the District for use in the work and unused, shall terminate when the Engineer certifies that such materials have been stored in the manner and at the locations he or she has directed.

[2] The Contractor's responsibility for damage to materials purchased by the District subsequent to the issuance of the notice that the contract is to be terminated shall terminate when title and delivery of the materials has been taken by the District.

[3] When the Engineer determines that the Contractor has completed the work under the contract directed to be completed prior to termination and such other work as may have been ordered to secure the project for termination, he or she will recommend that the Engineer formally accept the contract, and immediately upon and after such acceptance by the

Engineer, the Contractor will not be required to perform any further work thereon and shall be relieved of his or her contractual responsibilities for injury to persons or property which occurs after the formal acceptance of the project by the Engineer.

(c) The total compensation to be paid to the Contractor shall be determined by the Engineer on the basis of the following:

[1] The reasonable cost to the Contractor, without profit, for all work performed under the contract, including mobilization, demobilization, and work done to secure the project for termination. Reasonable cost will include a reasonable allowance for project overhead and general administrative overhead not to exceed a total of seven percent (7%) of direct costs of such work.

When in the opinion of the Engineer, the cost of a contract item of work is excessively high due to costs incurred to remedy or replace defective or rejected work, the reasonable cost to be allowed will be the estimated reasonable cost of performing such work in compliance with the requirements of the plans and specifications and the excessive actual cost shall be disallowed.

[2] A reasonable allowance for profit on the cost of the work performed as determined under Subsection (a), provided the Contractor establishes to the satisfaction of the Engineer that it is reasonably probable that he or she would have made a profit had the contract been completed and provided further that the profit allowed shall in no event exceed four percent (4%) of said cost.

[3] The reasonable cost to the Contractor of handling material returned to the vendor, delivered to the District, or otherwise disposed of as directed by the Engineer.

[4] A reasonable allowance for the Contractor's administrative costs in determining the amount payable due to termination of the contract.

All records of the Contractor and his or her subcontractors, necessary to determine compensation in accordance with the provisions of this section, shall be open to inspection or audit by representatives of the District at all times after issuance of the notice that the contract is to be terminated and for a period of three years, and such records shall be retained for that period.

After acceptance of the work by the Engineer, the Engineer may make payments on the basis of interim estimates pending issuance of the Final Estimate when in his or her opinion the amount thus paid, together with all amounts previously paid, will not result in total compensation in excess of

that to which the Contractor will be entitled. All payments, including payment upon the Final Estimate, shall be subject to deduction for prior payments and amounts, if any, to be kept or retained under the provisions of the contract.

The provisions of this section shall be included in all subcontracts.

**O. TRENCHING:** In accordance with Section 6705 of the California Labor Code,

No contract for public works involving an estimated expenditure in excess of twenty-five thousand dollars (\$25,000), for the excavation of any trench or trenches five feet or more in depth, shall be awarded unless it contains a clause requiring submission by the Contractor and acceptance by the awarding body or by a registered civil or structural engineer employed by the awarding body, to whom authority to accept has been delegated, in advance of excavation, of a detailed plan showing the design of shoring, bracing, sloping, or other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches. If such plan varies from the shoring system standards, the plan shall be prepared by a registered civil or structural engineer.

Nothing in this section shall be deemed to allow the use of a shoring, sloping, or protective system less effective than that required by the Construction Safety Orders.

Nothing in this section shall be construed to impose tort liability on the awarding body or any of its employees.

The terms "public works" and "awarding body," as used in this section, shall have the same meaning as in Sections 1720 and 1722, respectively, of the Labor Code."

In addition, pursuant to Public Contracts Code § 7104, if the project involves digging trenches or other excavations that extend deeper than four feet below the surface:

(a) That the contractor shall promptly, and before the following conditions are disturbed, notify the local public entity, in writing, of any:

(1) Material that the contractor believes may be material that is hazardous waste, as defined in Section 25117 of the Health and Safety Code, that is required to be removed to a Class I, Class II, or Class III disposal site in accordance with provisions of existing law.

(2) Subsurface or latent physical conditions at the site differing from those indicated by information about the site made available to bidders prior to the deadline for submitting bids.

(3) Unknown physical conditions at the site of any unusual nature, different materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in the contract.

(b) That the local public entity shall promptly investigate the conditions, and if it finds that the conditions do materially so differ, or do involve hazardous waste, and cause a decrease or increase in the contractor's cost of, or the time required for, performance of any part of the work shall issue a change order under the procedures described in the contract.

(c) That, in the event that a dispute arises between the local public entity and the contractor whether the conditions materially differ, or involve hazardous waste, or cause a decrease or increase in the contractor's cost of, or time required for, performance of any part of the work, the contractor shall not be excused from any scheduled completion date provided for by the contract, but shall proceed with all work to be performed under the contract. The contractor shall retain any and all rights provided either by contract or by law which pertain to the resolution of disputes and protests between the contracting parties."

Full compensation for sheeting, shoring, bracing, sloping, and all other provisions required for worker protection shall be considered as included in the contract price shown in the appropriate Bid Item, and no additional compensation will be allowed therefor.

**Q. CONTROL OF MATERIALS:**

The following sections are added to Section 4:

"4-1.1 General. The Contractor and all subcontractors, suppliers, and vendors shall guarantee that all work performed under this contract fully meets the requirements thereof as to quality of workmanship. Should any defects become evident within a period of one year from the date of the acceptance of the work by the District's Board, the Contractor shall, at his or her own expense, make any repair or replacement necessary to restore the work to full compliance with these Special Provisions.

Such repair and replacement shall be made promptly upon receipt of written notice from the Engineer. If the Contractor fails to make such repair and replacement promptly, the Engineer may cause the work to be done and the costs incurred thereby shall become the liability of the Contractor and his or her Surety.

If, in the opinion of the Engineer, defective work creates a dangerous condition or requires immediate correction or attention to prevent further loss by the District or to prevent interruption of operations of the District, the District will attempt to give the notice required by this article. If the Contractor cannot be contacted or does not comply with the Engineer's request for correction within a reasonable time as

determined by the Engineer, the District may, notwithstanding the provisions of this article, proceed to make such correction or attention and the costs of such correction or attention shall be charged against the Contractor.

The foregoing obligation shall be secured by the surety bond in a form approved by the Engineer in an amount not less than ten (10%) of the final contract price or \$1,000.00, whichever is greater, and shall be delivered to the Engineer prior to final acceptance of the work. Payment for fulfilling the requirements of this section shall be considered as included in the unit cost for the various contract items of work, and no additional compensation will be allowed therefor.”

“4-4.1 Test of Materials. Except as elsewhere specified, the District will bear the cost of testing material and/or workmanship that meets or exceeds the requirements indicated in the project specifications contained herein, Standard Specifications and the Special Provisions. The cost of all other tests, including the retesting of material or workmanship that fails to pass the first test, shall be borne by the Contractor.”

Section 4-5 shall be replaced with the following:

“4-5 Certification. A Certificate of Compliance shall be furnished prior to the use of any materials for which these specifications or the special provisions require that such a certificate be furnished. In addition, when so authorized in these specifications or in the Special Provisions, the Engineer may permit the use of certain materials or assemblies prior to sampling and testing if accompanied by a Certificate of Compliance. The certificate shall be signed by the manufacturer of the material or the manufacturer of assembled materials and shall state that the materials involved comply in all respects with the requirements of the specifications. A Certificate of Compliance shall be furnished with each lot of material delivered to the work and the lot so certified shall be clearly identified in the certificate.”

**R. CARB Compliance.** For a project involving the use of in-use off-road diesel-fueled vehicles, as defined by 13 CCR 2449, Contractor shall obtain copies of the valid Certificates of Reported Compliance, as described in 13 CCR 2449(n), for the fleet performing services pursuant to this contract and all listed subcontractors, if applicable, prior to commencing any work pursuant to this Contract or any renewed contract with that fleet. Contractor shall indemnify, defend and hold harmless the District, its officers, agents, employees and directors from any liability imposed arising from Contractor’s violation of any regulation set forth in 13 CCR 2449.

**S. CONFERENCES AND MEETING:** When and as directed by the Engineer, the Contractor shall attend all conferences and meetings that the Engineer deems necessary for the proper progress of work under this contract.

**T. UNDERGROUND SERVICE ALERT:** Except in an emergency, the Contractor, prior to conducting any excavation or resurfacing, shall contact the appropriate regional notification

center, at least two working days prior to commencing that excavation or resurfacing. The regional notification center shall provide an inquiry center and shall notify any member, if known, who has a subsurface installation in the area of the proposed excavation or resurfacing.

(B) The claimant shall furnish reasonable documentation to support the claim.

(C) If the public entity needs approval from its governing body to provide the claimant a written statement identifying the disputed portion and the undisputed portion of the claim, and the governing body does not meet within the 45 days or within the mutually agreed to extension of time following receipt of a claim sent by registered mail or certified mail, return receipt requested, the public entity shall have up to three days following the next duly publicly noticed meeting of the governing body after the 45-day period, or extension, expires to provide the claimant a written statement identifying the disputed portion and the undisputed portion.

A subcontractor may request in writing, either on their own behalf or on behalf of a lower tier subcontractor, that the contractor present a claim for work which was performed by the subcontractor or by a lower tier subcontractor on behalf of the subcontractor. The subcontractor requesting that the claim be

presented to the public entity shall furnish reasonable documentation to support the claim. When in doubt, the Contractor shall contact the utility concerned before proceeding further.
